

POSTAGE METERING SYSTEM FOR
USE WITH BUSINESS REPLY MAIL

Abstract of the Invention

A method of operating a postage metering system for printing a
5 postage indicium for use with a business reply mail piece. The method
includes the step(s) of: (i) transmitting a registration ID number to a data
center, the registration ID number being associated a particular mail
campaign of which the business replay mail piece is a part; (ii) receiving
postage indicium information from the data center, the postage indicium
10 information including delivery address information generated using the
registration ID number; and (iii) printing the postage indicium on the business
reply mail piece using the postage indicium information.
